<i>doink</i> Repair cut in Georgian building			
CUT INTO THE BACKFILL OF A BRICK DRAIN CUT. POSSIBLY TO ACCESS THE DRAIN FOR REPAIRS.			
FILL CONTAINED GERMAN STONEWARE VESSELS 1836-1880.			
The cut was recorded after exc., was not spotted earlier. During the exc. of the drain backfill we spotted a high concentration of german stoneware in the southern end of the drain cut, when we reached the drain there was no top, only remains of timber. We assumed that the drain top was removed during the repair and a wooden lid was put on instead.
