Interpretation:	internal	<u>external</u>
Internal wall in Georgian building. T-shaped, 2 courses preserved on the western end, the rest of the wall is only the bottom course. Most of the wall has a soldier course as the bottom course (headers on edge). The southern part of the final course is headers on bed.		
The same thing was observed with the main N-S running original back Georgian wall [3455] and the change was occurred at approximately the same northing. (see sketch)
