

Hand-drawn pedigree chart showing a family with a child affected by Down syndrome. The chart is organized into three generations (I, II, III) with individuals represented by boxes. Generation I consists of an unaffected male and an unaffected female. Generation II consists of four children: an unaffected male, an unaffected female, a child affected by Down syndrome (labeled 3879), and an unaffected female. Generation III consists of eight children: an unaffected male, an unaffected female, an unaffected female, a child affected by Down syndrome (labeled 4060), a child affected by Down syndrome (labeled 4081?), an unaffected female, and an unaffected female. A horizontal line connects the two children affected by Down syndrome in Generation III, labeled 'BF' (brother-sister). A vertical line connects the child affected by Down syndrome in Generation II to the child affected by Down syndrome in Generation III, labeled 'BF' (brother-sister). A vertical line connects the child affected by Down syndrome in Generation I to the child affected by Down syndrome in Generation II, labeled 'BF' (brother-sister).
